Brittany Ferries have teamed up with expert guides from Planet Whale and marine conservation charity ORCA to bring you our twice annual Big Whale Watch!

Biscay Triangle cruise

Join us aboard the luxury cruise-ferry, Pont Aven, as we sail a brilliant new triangular route, exploring mysterious deep waters that are only beginning to reveal their wild secrets. We will cruise through the English Channel, the 4000m deep Bay of Biscay, and the submarine canyons off the Spanish coast before landing briefly in Santander.

This is the perfect introduction to whale watching. Typical trips include Fin Whales (the second largest whale on earth), Sperm Whales (made famous through the story of Moby Dick), Pilot Whales, and hundreds of dolphins racing in to the bow.

On board our flagship, Pont-Aven

On board your friendly guides will help you spot all kinds of amazing marine life, with deck watches, wildlife presentations and optional excursions.

Alternatively, step inside and enjoy the kind of service and facilities normally only found on cruise ships, including leisure bar areas, stylish shopping malls, a wide choice of dining and superbly appointed en-suite cabin accommodation.
